

## Cancer, Ageing and Rejuvenation Graduate School - CARE

### Master's Programme

2022 - 2023

Title of the Teaching Unit (UE): Molecular and cellular basis of cancer and aging		
<b>Semester: 7</b>	<b>Number of ECTS: 3</b>	<b>Hourly volume: MC : 8H &amp; DW : 16H</b> <i>No distance learning</i>
<b>Teaching Team</b>	<p><b>Leaders :</b> Cedric Dray <a href="mailto:cedric.dray@inserm.fr">cedric.dray@inserm.fr</a> &amp; Bruno Ségui <a href="mailto:bruno.segui@inserm.fr">bruno.segui@inserm.fr</a></p> <p><b>Teaching team :</b> Cédric Dray, Bruno Ségui &amp; Victorine Douin</p>	
<b>Objective</b>	The objective of this course is to introduce students to the understanding of the fundamental mechanisms that accompany and explain two pathophysiological processes, namely aging and cancer	
<b>Content</b>	<p>80 students (2 groups of students including 1 in English)</p> <p>CM1: Cancer, aging and DNA alterations            CM2 : Causes of senescence            CM3: Consequences of senescence            CM4: Metabolic alterations in cancer and aging</p> <p>TD1: Cancer/aging modeling: animal, cellular, mathematical models            TD2: Senescence and Cancer: DNA damage, telomere attrition            TD3: Is aging a pathology? (multidomain prevention)            TD4: Senescence and aging: senolytics and senomorphics            TD5 : What impact of metabolism on cancer and aging: mitochondria, oxidative stress            TD6: SASP            TD7: Interrelation between cancer and aging            TD8 : Regenerative capacities</p>	
<b>Pre-requisites</b>	Basics of cellular and molecular biology (L3 level)	
<b>Keywords</b>	Cancer/Aging/Senescence	
<b>Skills</b>	<ul style="list-style-type: none"> <li>- Take a critical look at scientific articles dealing with the different fundamental aspects of cancer and aging</li> <li>-Better understand the molecular and cellular mechanisms of senescence</li> <li>-Master oral presentations</li> <li>-Put into perspective the fundamental mechanisms of cancer and aging for therapeutic purposes</li> </ul>	
<b>Block of Skills</b>	- Cell Biology/Biochemistry
